JHON DEIBER DIAZ PARRA

Full Stack Developer | .NET / C# / APIs / SQL Server | Trilingual: English, French, Spanish

Calgary, Alberta (NW) | (514) 346-1672 | jhondeiberd@gmail.com

LinkedIn: linkedin.com/in/jhondeiberd | Portfolio: jhon-diazportfolio.vercel.app

PROFESSIONAL SUMMARY

Software Developer with 3+ years of professional experience building and maintaining C# / ASP.NET Core applications, REST APIs and SQL Server databases in an enterprise environment. Monitored the applications and APIs that keep enterprise systems exchanging data, resolved Tier 2 incidents, and developed new APIs, features and an intranet management application that automates SharePoint site creation through the Microsoft Graph API. Backed by 12 years in ERP applications (Microsoft Dynamics), including database operations, budgeting, licensing and migrations. Completed Microsoft MCSA-track training in SQL Server, C# / ASP.NET Core MVC and Power BI. Experienced in Agile delivery. Trilingual: Spanish, French and English.

TECHNICAL SKILLS

Languages: C#, T-SQL (professional); JavaScript, TypeScript, Python, Java, Go, C++, PHP, Kotlin, Flutter (education and personal projects); HTML5, CSS3

Back-End: .NET Framework, .NET Core / ASP.NET Core MVC, RESTful APIs, Web API, Swagger / OpenAPI, Hangfire, Node.js, Express.js, Microsoft Graph API, SharePoint

Front-End: React.js, Bootstrap, Tailwind CSS, MVC

Databases & BI: SQL Server, stored procedures, query optimization, indexing, backups, SSRS, SSIS, ETL, Power BI, PostgreSQL, MySQL, MariaDB

DevOps & Tools: Git, GitHub, Azure DevOps (TFS), Bitbucket, IIS deployment, PowerShell, Office 365, XML, JSON

Enterprise Systems: Microsoft Dynamics ERP (X++ / AOT debugging), WMS, PLM, POS, ticketing / incident management

Methodologies: Agile, Scrum, Kanban, SDLC, OOP, technical documentation, user training, Tier 2 support

AI-Assisted Development: AI coding assistants, code optimization, faster development cycles, prompt engineering

PROFESSIONAL EXPERIENCE

Full Stack Developer **April 2023 – June 2026**

Canadian Centre for Architecture (CCA) – Montréal, QC

- Monitored enterprise applications and APIs that ensure reliable communication and data transfer between systems, detecting and fixing failures before they affected users.
- Diagnosed and resolved production incidents (Tier 2) through the ticketing system, restoring service for business users.
- Designed, developed and deployed new RESTful APIs in C# (.NET Framework / ASP.NET Core) to integrate enterprise systems.
- Developed new features and applications and improved existing systems based on business requirements, working with users in French and English.
- Built an ASP.NET Core MVC application that creates, edits and deletes SharePoint intranet sites through the Microsoft Graph API (see Selected Projects).
- Wrote and optimized T-SQL stored procedures and queries in SQL Server to improve application performance.
- Documented APIs with Swagger and automated scheduled jobs with Hangfire.
- Deployed and administered applications on IIS, maintained SSRS reports, and managed source control and work items in Azure DevOps (TFS).

Applications & Database Manager – ERP (Microsoft Dynamics) **Dec 2017 – Oct 2020**

Permoda Ltda. – Bogotá, Colombia

- Led the technical team responsible for the daily operation and support of the Microsoft Dynamics ERP and other enterprise applications, ensuring service continuity for end users.
- Planned and managed the annual ERP improvement budget and software licensing.
- Reviewed and approved new developments, projects and migrations, coordinating requirements and schedules with area managers and third-party service providers.

- Ensured availability, performance and security of the ERP database: optimization, indexing, statistics, locks and backups.
- Led ERP project execution and tracking using Agile methodologies.
- Supported the team debugging Dynamics ERP code (AOT) and wrote SQL queries for incident analysis and resolution.
- Coordinated virtual training material for application users.

Applications Professional – ERP **Aug 2008 – Nov 2017**

Permoda Ltda. – Bogotá, Colombia

- Implemented, deployed, tested and enhanced standard ERP modules and local functionalities in production.
- Led application planning focused on key-user training and developed virtual training materials.
- Optimized ERP processes and procedures; escalated complex issues to Level III specialists.

Production Planning Analyst **2003 – 2006**

Permoda Ltda. – Bogotá, Colombia

- Designed workload balancing, standard times and efficiency reports; identified production bottlenecks.

Landscaper **July 2021 – March 2023**

Boardwalk – Montréal, QC

- Painting and lawn maintenance in common areas of assigned buildings, while completing programming studies.

SELECTED PROJECTS

Intranet Site - SharePoint – ASP.NET Core MVC, Microsoft Graph API, SharePoint (CCA)

- Developed an application that administers the company intranet: automatically generates SharePoint intranet pages from PDF files and supports editing and deletion of sites through the Microsoft Graph API.

Favorite Music Albums Manager – Full Stack (Node.js, Express, React, PostgreSQL)

- Built the REST back-end (Node.js / Express / PostgreSQL) and integrated the Discogs API; React front-end developed in a team of two.

Personal Budget App – Android (Kotlin)

- Multilingual app to track income, expenses and balance with full create / edit / delete of transactions.

EDUCATION

Attestation of College Studies – Programming and Web Technologies **Feb 2021 – Jan 2023**

Collège Universel – Montréal, QC

Bachelor's Degree in Production Engineering **2008 – 2013**

Universidad Distrital Francisco José de Caldas – Bogotá, Colombia

French as a Second Language – Francisation, Level 8 **Oct 2022 – Jul 2025**

Centre Yves-Thériault and CSAI – Montréal, QC

English Language Studies, Level B2 **Jul 2026 - Present**

Academia Smart – Colombia (Online)

TRAINING AND COURSES

- SQL 2016 Database Development (MCSA preparation course) – Lourtec IT Services, 2019–2020
- Developing C# – ASP.NET Core MVC (MCSA preparation course) – Lourtec IT Services, 2019
- Analyzing and Visualizing Data with Microsoft Power BI (MCSA preparation course) – Lourtec IT Services, 2020
- Database Administrator (DBA), 2017–2018, and Object-Oriented Programming, 2021 – Fundación Carlos Slim

LANGUAGES

French: Professional working proficiency, B2+ | **English:** Intermediate, B2 (actively studying) | **Spanish:** Native
